PROJECT

CRYPTOCURRENCY PRICE ALERT APPLICATION

Description:

Developed a Python-based application that monitors cryptocurrency prices using the Coindcx API and notifies the user through SMS or call using the Twilio API when a cryptocurrency on their watchlist reaches the target price.

Key Contributions:
- Designed and implemented the application's architecture using Python.
- Utilized Coindcx API to fetch real-time cryptocurrency prices and track changes in price.
- Integrated Twilio API to alert users via SMS or call when a target price is reached.
- Developed an intuitive user interface for adding and managing cryptocurrency watchlists.
